

UPCOMING FOURTH GRADE SUMMER READING

It is important for children to maintain their reading skills throughout the summer.

Set aside some time each day to read. We encourage various reading material (book of good length: 80+ pages, fiction, non-fiction, magazines, newspapers...). We rely on parents' judgment to assist their child in choosing age-appropriate material. See the attached list for suggested books.

Each student is required to read one of the (*) books and write a book report using the attached form. We recommend that each child read at least 3 books from the list. This assignment and list of books read must be completed and turned in on the first day of school.

Sincerely,
Fourth Grade Teachers
